

Dinsmore Fire Department Updates

The Dinsmore Fire Department would like to remind residents of the controlled burn telephone number. If you are doing a controlled burn, it is very important that you contact

1-866-404-4911

and provide them with your name, contact number and land location. In the event you do not call the controlled burn number and someone reports your fire, you will be responsible for any charges relating to the fire department being called to respond.

The Dinsmore Fire Department is also happy to announce that they have recently purchased an AED to be added to the equipment that the fire department has access to in the event of an emergency. It is thanks to community donations, that purchases such as this are possible. We are extremely grateful for the community support we receive.

Special thanks to recent donations by the Dinsmore Kinettes,
Ron & Dorie Leavins and the DDDD.
